

- 1 Hydraulic oil pump
- 2 Hydraulic oil reservoir
- 3 Levelling valve
- 4 Pressure reservoir
- 5 Suspension strut
- 6 Lever on torsion bar
- 7 Connecting bar
- 10 Torsion bar
- 18 Rear spring
- 19 Semi-trailing arm
- 26 Rear axle carrier

- A Suction line, oil reservoir to hydraulic oil pump
- B1 Pressure line, oil pump to levelling valve
- B2 Pressure line, levelling valve to pressure reservoir
- B3 Pressure line, pressure reservoir to suspension strut
- C Return line, levelling valve to oil reservoir

● Visual inspection

With engine running, check:

Pressure oil pump

Oil supply tank

Level controller

Pressure reservoir

Tube shocks

Line connections

pipes and hoses for chafing, dents, cracks, corrosion
as well as leaks

Note: If leak is present check level control system
with engine running and with approx. 150 kg load
on rear of vehicle.
